ASSETS PROTECTION

We started advising top Fortune 500 companies in 1990 the importance of liquid asset protection and avoidance of double taxation and governmental quasi-confiscatory tax schemes. We advised against the then prevalent use and abuse of "secured" Swiss bank accounts and against the Swiss Government "promise" of confidentiality. We were 19 years ahead of our colleagues, protecting assets in blind trusts and the legal and tax-free reconversion of its proceeds in real estate investments in Southern Florida, the Bahamas, Turk & Caicos and the U.S. Virgin Islands, among other safe real estate markets under complex offshore structures.

We help our clients protect their hard-earned assets from lawyers, lawsuits, creditors, foreclosure deficiencies, former or current spouses, children, relatives, and from those who want to access their wealth without their blessings. While many people can make money, few know how to protect it. You must think and act defensively to protect your wealth in today's dangerously predatory world. Your wealth is not safe unless you protect it. Utilize our proven strategies to protect your assets and successfully shield your personal wealth, the wealth of your family or your company.
